GALLAGHER ASPHALT CORP. WINS NATIONAL RECOGNITION FOR COMPANY WEBSITE

Lanham, MD -- The National Asphalt Pavement Association (NAPA) announced today that Gallagher Asphalt Corp. of Thornton, Illinois has won NAPA's Website Award. The company received its award at a special ceremony at the Association's 48th Annual Convention in San Diego.

This is the first year for the award, which recognizes Web site designs that promote the use of Hot Mix Asphalt and the Hot Mix Asphalt industry.

Gallagher's website (www.gallagherasphalt.com) includes information about the company's heritage, its services and divisions, as well as many illustrations of the company's projects and crews at work. It provides a look at the company's top projects for the year and showcases studies by industry showing how HMA has been able to solve a problem or fill a need. The site also offers testimonials from many of its satisfied customers.

The National Asphalt Pavement Association is the only association that exclusively represents the interests of the Hot Mix Asphalt producer/contractor on the national level with Congress, government agencies, and other national trade and business organizations. NAPA supports an active research program designed to improve the quality of HMA pavements and paving techniques used in the construction of roads, streets, highways, parking lots, airports, and environmental and recreational facilities. The Association provides technical, educational, and marketing materials and information to its members, as well as product information to users and specifiers of paving materials. The Association, whose members number more than 1000 companies, was founded in 1955.
