TrafficPatterns™
A TrafficScapes™ Solution by Ennis-Flint

G R O U T - F R E E

Multi-Color, Interconnected Surface Applied Preformed Thermoplastic Pavement Marking Material for Crosswalks and Traffic Calming Purposes

PERFORMANCE-BASED FEATURES AND BENEFITS

- Engineered as heavy-duty intersection grade pavement marking material with enhanced durability
- 125-mil; interconnected sheets of material
- High skid/slip resistant for safety. As material wears, new anti-skid elements are exposed.
- Does not alter substrate
- Eliminates the maintenance and safety concerns of loose pavers
- Requires installation by a TrafficScapes Certified Applicator
- Apply with recommended propane heat torch and/or StreetHeat™ infrared heater
- Can be applied on new asphalt as soon as the road surface cools and sets
- Does not require stamping templates or grids
- Open to traffic minutes after application
- ADA compliant - Pedestrian and wheelchair friendly surface

Color Combinations are not interchangeable
TrafficScapes™ is a portfolio of preformed thermoplastic pavement marking materials engineered for durability, safety, and aesthetics for the streetscape and traffic calming market designed to:

- Improve traffic safety especially at intersections and multi-use paths
- Enhance visibility for pedestrians, motorists, and cyclists
- Provide design elements that complement a Complete Streets community
- Channel pedestrians across busy commercial parking areas
- Promote and/or revitalize community image
- Attract new business development in livable communities
- Create low-cost median or island effect without the use of raised curbs

Each product offers its own unique application and performance approach to streetscape projects where shared roadway safety and aesthetic appeal need to work in conjunction.
